

## Less-than-Truckload and Truckload Services

### LTL Services

*Ship from anywhere to anywhere with confidence.*

Let us put our 50-plus years of experience in less-than-truckload (LTL) services to work for you. With Clark Freightways, you have access to a wide-ranging network of strategically located facilities serving over 600 communities across British Columbia. Our longevity and success as a BC carrier has allowed us to develop the capabilities to meet all your transportation needs. We have a large, modern fleet at your disposal consisting of over 200 trailers and reefers in various lengths and configurations, including tridem.

With our extensive experience and reach, we can satisfy all of your LTL transportation requirements. To meet your specific needs, we offer direct-to-store-deliveries (DSD), cross-docking services, and other customized LTL distribution solutions. We provide local overnight deliveries, even on Saturdays, to most communities within BC. When and where needed, you have access to short-term, multi-temperature storage throughout our network of service centers for efficient and reliable distribution of your refrigerated, frozen, and dry products.

### TL Services

*Need more cargo space? No problem.*

When you need exclusive use of a reefer or dry trailer to ship products, the Clark Freightways fleet is ready with our truckload (TL) services. Whether you need to ship foodstuffs or general freight, our truckload services can handle a wide variety of goods.

Whatever your logistical requirements, Clark is ready to meet them with our TL distribution solutions. We offer temperature-controlled and protective services, expedited services, cross-docking services, container consolidation and deconsolidation services, and other customized truckload (TL) logistics solutions to meet your needs.

#### Clark Freightways offers you:

- Comprehensive network of strategically located facilities that serve over 600 communities across the province.
- Large, modern fleet with GPS dispatching using wireless handheld computers, providing you with real-time shipment and delivery details seven days a week, 24 hours a day.
- Web Bill of Lading (WEBBOL) service, which allows you to easily create and store BOLs, use templates for recurring orders, schedule pickups online, receive email confirmation and tracking details for your orders, and print labels.
- Customized Transportation Management System (TMS) provides unparalleled efficiency by integrating all aspects of our operation, making us one of BC's most technologically advanced carriers.
- Cross-docking and local overnight deliveries, with overnight service to most BC communities, including Saturdays.
- Temperature-controlled and protective services.

## Why is Clark Freightways the best choice?

**We offer fast, efficient, and reliable service at a fair price.**

We know your community and have the technological resources to plan and route your LTL and TL shipments in the most timely and cost-effective ways possible. As one of the most high-tech carriers in Canada, Clark uses a Transportation Management System (TMS) that helps us deliver your goods from point A to point B more efficiently than ever.

Shipping is easy and seamless with Clark's Web Services. You can save both time and money by using our interactive Web Bill of Lading (BOL) service. At the touch of your fingertips, you can schedule pickups online, create templates for recurring orders, print labels, and archive BOLs for later analysis. Our GPS-equipped drivers provide you with real-time shipment updates, allowing you to easily track orders using your own

reference, BOL, or purchase order number. And you can receive all shipment alerts through email, including real-time booking and delivery confirmations or exception notifications.

Clark offers both affordable pricing and reliable, on-time pickup and delivery. Our experienced, knowledgeable, and well-trained staff is ready to serve you at our general office and local branches. As always, Clark puts you first.
